STYLE E DESIGN 2022

La casa è lo specchio dell'anima. Ogni dettaglio esprime la personalità di chi la abita, dalla scelta dei colori a quella dei materiali, il benessere inizia tra le mura domestiche.

Per questa ragione è utile pensare gli spazi rispettando le proprie esigenze di gusto e comfort. È avvenuta un'evoluzione del concetto di abitare e il bagno più di altri ambienti ha reso evidente questo processo di metamorfosi. L'arredo bagno è stato lungamente sottovalutato. Tutto era pensato solamente in funzione dell'utilità. Oggi il bagno è un ambiente importante non solo per la sua funzionalità ma anche per il design e l'estetica. Il tempo dedicato alla cura del corpo e al relax ha fatto sì che il bagno diventasse anche sinonimo di eleganza e gusto, con un occhio di riguardo alle innovazioni del settore. "È aumentata la necessità di trovarsi bene nelle proprie case. Dopo la pandemia, complice anche lo smart working, la gente ha sentito il desiderio di rinnovare l'ambiente dove vive, dargli nuova vita prestando maggiore attenzione alla qualità del prodotto, con una predilezione per il made in Italy".

LAVACRIL

I nostri lavatoi sono resistenti all'acqua ed all'umidità, essendo realizzati interamente in materiale acrilico. È grazie a questa caratteristica che i lavatoi sono utili negli ambienti interni e insostituibili in quelli esterni perchè Lavacril resiste agli agenti atmosferici.

Our laundry tub cabinets are entirely made of acrylic and that makes them resistant to water and moisture. Thanks to this feature, the laundry tub cabinets can be used indoor and outdoor as Lavacril is weathering resistant.
