KANAAL

Designer Massimiliano Cicconi

Dal design di Massimiliano Cicconi, il lavabo Kanaal prende spunto dal concetto di lavabo a canale e lo attualizza in chiave contemporanea. Una forma rigorosa, dalle dimensioni imponenti è il tratto distintivo di Kanaal, esempio della grande abilità artigianale e produttiva dell'azienda. Insieme a specchiera e mobile bagno, Kanaal crea una soluzione compositiva da disporre a seconda delle esigenze, un progetto per l'arredo bagno al confine tra industrial e minimal, essenziale e d'impatto.

The Kanaal washbasin, designed by Massimiliano Cicconi, reinterprets the traditional trough sink with a contemporary twist. Characterised by a bold, geometric design and substantial dimensions, Kanaal exemplifies the company's exceptional craftsmanship and production expertise. Paired with a mirror and bathroom cabinet, Kanaal offers a compositional solution that can be customized to suit any space. A bathroom furniture project with a perfect balance between industrial and minimalist style, featuring a timeless and functional aesthetic.

OKE & HAKO

Designer Alessandro Paoletti

Un design minimale e pulito, che arreda il bagno con stile ultra moderno. Due forme eterne che riportano la bellezza della materia al centro. Alessandro Paoletti si ispira alle parole giapponesi Oke (secchio) e Hako (scatola) per creare due elementi essenziali e imponenti al tempo stesso, capaci di creare molteplici soluzioni grazie alle versioni da appoggio e free standing.

A minimal and sleek design that brings an ultra-modern style to the bathroom. Two eternal shapes that put the beauty of the material back at centre stage. Alessandro Paoletti drew inspiration from the Japanese words Oke (bucket) and Hako (box) to design two essential yet striking washbasins that allow different bathroom solutions thanks to the countertop or freestanding installation method.

NOLITA MONOBLOCCO

Designer Alessandro Paoletti

Nolita Monoblocco, dal design di Alessandro Paoletti, accoglie il nuovo sistema rivoluzionario che cambia radicalmente l'esperienza di scarico. Il sistema senza brida NoRim con foro di uscita non a vista dona un aspetto ordinato e pulito a tutto l'elemento. Il bacino interno, nasconde la tecnologia fluidodinamica Noise Clean con scarico a vortice, che garantisce un getto deciso e uniforme, una performance ultra-silenziosa e un significativo risparmio di acqua.

The Nolita close-coupled toilet designed by Alessandro Paoletti welcomes the new revolutionary system that radically changes the flushing process. The NoRim trademark, awarded to rimless toilets with an invisible flush outlet, ensures a clean and uncluttered design. Hidden inside the toilet bowl is the Noise Clean fluid dynamic technology of vortex flushing, which guarantees a powerful and even jet, extremely quiet performance, and significant water savings.
